VINATABA (JV)

## WATER STEWARDSHIP COMMITMENT

We understand water is essential for life. As individuals, we need water to live. Communities need access to water to survive and thrive. Yet, water is the first commodity on the earth that is in short supply.

At BAT-Vinataba, we unequivocally believe that access to water is a basic human right. Everyone everywhere should have access to water.

Water is shared and precious resource to be managed sustainably by all user in the watersheds where they live and operate. This is water stewardship. Water challenges are local and believed we can only effectively address them by working with all members of the communities.

Our approach to water stewardship to ensure the use of water is socially equitable, environmentally sustainable, and economically beneficial.

With our Water stewardship to ensure the use of water is socially equitable, environmentally sustainable, and economically beneficial.

We hereby to commit on following commitments:

- Site will implement and disclose progress on water stewardship program(s) to achieve improvements in AWS water stewardship outcomes
- Site implementation will be aligned to and in support of existing catchment sustainability plans
- Site's stakeholders will be engaged in an open and transparent way
- Site will allocate resources to implement the Standard accordingly.

BAT Vinataba Joint Venture Company always aims to ensure our operations with the sustainability on environment and public health. Therefore, protecting water resources is a key area that we always aim at in the journey of sustainable as well as contributing to ensuring the safety and sustainability of water resources.
